

## **Manufacturing Technician for production and start-up of machines (M/F)**

### **DUTIES AND RESPONSIBILITIES:**

Our equipment combines several technologies (mechanical, vacuum, radiofrequency, fluids, electronics) and requires optimal manufacturing quality in a clean room environment.

Within a small versatile team, ensure the production of sub-assemblies and machines: assembly / wiring / adjustment / testing of products.

- Assemble complex electromechanical parts and subassemblies according to manufacturing orders
- Contribute to the development of assembly and test procedures for new manufacturing
- Install the machines at the test stations (fluid and electrical connection)
- Perform leak tests
- Develop, adjust and test the machine
- Disconnect the machine from the test station and prepare the equipment for shipment to the customer
- Document and ensure the traceability of manufacturing through the production management system (ERP)
- Detect, process and monitor internal and/or supplier non-conformities

### **Professional experience / Education:**

- Bac +2/3 technical (physical measurements, mechanics,...)
- Minimum one year of experience as an assembly / cabling / adjustment technician
- Having an electrical license is a plus
- Knowledge of vacuum technologies is a plus
- Mastery of office software, experience on an ERP desired
- English read and written (oral comprehension)

### **Skills :**

- You know how to read and interpret plans, diagrams, technical procedures
- You know how to read and follow the instructions to carry out the operations, respecting the quality standards
- You are dynamic, rigorous, autonomous and reactive
- You have good learning and adaptation skills and know how to prioritize the actions to be taken
- You are customer oriented
- You like teamwork and communicate well

### **Terms :**

- Full-time permanent contract (CDI) to be filled quickly

- Salary: to be discussed depending on the candidate's experience
- Position within the operations department
- Mainly clean room environment
- Possible trips to the parent company in the USA (Florida)
- Restaurant ticket 50% covered by the company
